Phishing Campaign	<div><div></div><div></div><div></div><div></div><div></div></div>

Interest

I am Interested in Coding, all about Tech ,Hacking and just exploring things out to see how it works out

Objective

I am highly-motivated, Conscientious and a competent collaborator who posses in-depth knowledge and expertise within this industry .With proven track record of achievement, I can bring positivity ,support and a creative mindset to any team. I pride myself on taking ownership of challenging problems , maintaining high standards and assisting my employer in achieving their commercial objectives. With desire for continuous professional development ,I am confident I can add value to your organization by always ensuring your customers and clients receive the best service possible . With 1year experience in Software development roles, I can be relied upon to deliver everything that I set out to achieve, Whilst always seeking ways to help my employer grow and save money at the same time.

Work Experience

INNOV8 11/2022 - 11/2022
Hackathon

This is more of achievement than of work experience.I with collaboration with my team we were able to achieve rank of number 3 in a hackathon that was prepared and hosted by value chain factory on 11th -Nov to 13th -Nov -2022.Where we were tasked with roles to build a system in two days.

Project

Forgot Password System 11/2022 - Nowadays
Password System

This is a PHP project that i am doing it is purpose is to scale my skills and flexibility using PHP . The system is always incorporated in many public user system where the system verifies the user to finish up the registration. The user if she or he forgets the password can reset where the system to enter email she Registered with so to sent the reset link.

Frontendmentor 01/2022 - Nowadays
Frontend Skills

As the start of year i have been Accomplishing frontend challenges that are mainly focused on frontend design . The have helped me alot to scale up my Skills on HTML/CSS and SASS and JavaScript.

Attendance System 07/2022 - 09/2022

Attendance

This was a PHP project where i was responsible to create a system that would allow student and Lectures to register in the system where there would sign in their nominal roll and give remarks about last term or semester .The director would perform all duty as admin responsible with crud functionality.

SELF LEARN

08/2021 - Nowadays

Self
